Deliverloo

Deliveroo is an online food delivery service that partners up with other restaurants to deliver food to customers on demand.

(what)

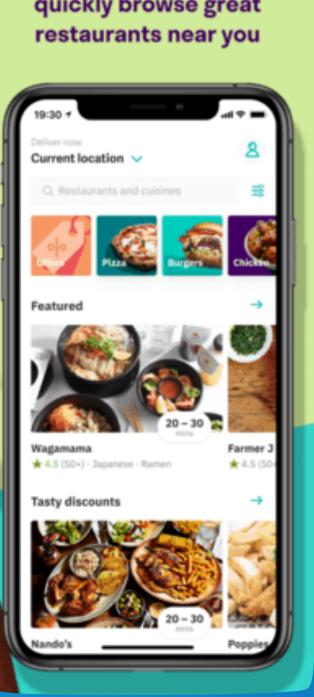

Deliverloo

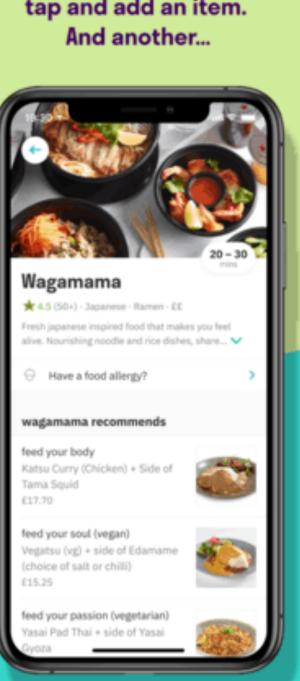

(how)

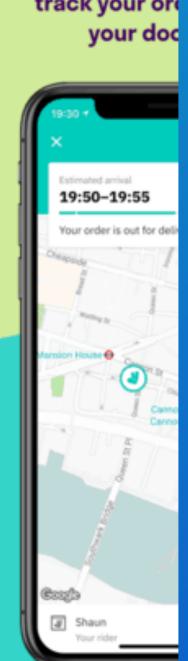

Deliveroo is an online food delivery service that partners up with other restaurants to deliver food to customers on demand.

ant food, quickly browse great restaurants near you tap and add an item.
And another... track your ord your doc

Summary of learnings

What is Innovation & UX?

- Innovation and UX is all about problems solving of what users/customers perceived
- Is a thinking process and doing process
- A belief of "There are better solutions!"

Business model canvas

- Tools The way of using the tools (How)
- Methodologies Co-designing, Value proposition canvas
- Order . Precise . Refine

Why some innovations work better?

- Present and collect feedbacks
- Iterates and improve
- Research and validation ... ask the right questions
