

SpaceBiz BREAKFAST

BREAKFAST TALK ON INVESTMENT INTO THE SPACE SECTOR

Did you know that SpaceX's valuation is already at US\$125 billion and it is still not listed? By 2030, the space economy may reach into the trillions under the current trajectory. Although NewSpace provides innovative and exciting breakthroughs, information is incredibly scarce for those who want to make informed and successful career and investment decisions. What is the science and business behind these new Start-ups? Are we going to miss out, again?

"Taking off" this August, a brand new symposium, OASA's SpaceBiz Breakfast Workshop aims to mitigate exactly this information gap by bringing together engineers, scientists, investors, and other space industry experts... **right here in Hong Kong.**

Sample Breakfast Discussion Topics

- The Satellite Internet (Starlink and GW)
- Earth Observations (Descartes Labs)
- Space Tourism (Blue Origin, Virgin Galactic)

Event Details (Tentative)

Date: 3rd Friday of Each Month (10 sessions in all from Aug 2022 to Aug 2023)

Time: 8am - 10am

Venue: The Bankers Club Hong Kong. (Experts Zooming In)

Language: English

Price and Registration: HK\$ 1,200 to 2000 each time, depending on membership status and package

Registration Deadline: 13 August (First Come First Served)

ABOUT OASA

The **O**rion **A**stropreneur **S**pace **A**cademy (OASA), headquartered in Hong Kong, aims to launch young leaders into global systems leaders. Through creating educational missions for schools - CubeSats, Metaverse, and STEM, we spark digital transformations for young entrepreneurs in local companies. We believe Hong Kong can be a Space Portal by 2030. **Join the challenge, the fun, and roll up your sleeves.**
